

TRAINING WORKSHOP ON MANAGEMENT OF WETLANDS AND COASTAL HABITATS AT WILDLIFE INSTITUTE OF INDIA, DEHRADUN (08TH– 20TH JANUARY 2018)

DETAILED REPORT

Of the five Ganga States, three forest officials from Uttarakhand, Uttar Pradesh and West Bengal had participated as lateral entrants in the training workshop of “Management of Wetlands and Coastal Habitats” at Wildlife Institute of India, Dehradun under WII-NMCG Biodiversity Conservation and Ganga Rejuvenation from 08th January – 20th January 2018.

PROGRAMME SCHEDULE

Date & Day	0930-1020	1020-1110	1110-1120	1120-1210	1210-1300	1300-1430	1430-1630	1630-1645	1645-1730
Monday 08/01/2018	Introduction to the module (GGV)	Wetland definition and classification. Wetland values and functions (SAH)	Tea Break	Wetland degradation and loss (SAH)	Status of inland and coastal wetland conservation in India (GGV)	Lunch Break	Biodiversity conservation and Ganga rejuvenation (ND)	Tea break	Exercise for developing conservation strategy for wetlands - Describing a wetland (SAH, GGV)
Tuesday 09/01/2018	Wetland hydrology and water budget (SAH)	Ecology of coastal wetlands: Mangroves (GGV)		Monitoring of wetlands (JAJ)	Monitoring of wetlands (JAJ)		Case Study on ecology of inland wetlands of Gangetic plains		Exercise for developing conservation strategy for wetlands- Identifying

							(SAH)		problems and issues (SAH, GGV)
Wednesday 10/01/2018	Ecology of rivers and streams (SA)	Monitoring of River variables (ND)		Management of Coastal and marine biodiversity with special reference to coral reef, sea grass and Dugong Conservation (KS)	Management of Coastal and marine biodiversity with special reference to coral reef, sea grass and Dugong Conservation (KS)		Case study on Assessment of environmental flow in context of aquatic species conservation (ND)		Exercise for developing conservation strategy for wetlands - Setting objectives (SAH, GGV)
Thursday 11/01/2018	Onsite problem solving- Wetland pollution monitoring and control (AB)	Onsite problem solving- Wetland pollution monitoring and control (AB)		Marine Protected Area Management (SSK)	Marine Protected Area Management (SSK)		Management of wetlands. Identification of problems, setting objectives and strategies (SAH)		developing conservation strategy for wetlands - Strategies and action plan (SAH, GGV)
Friday 12/01/2018	Onsite problem solving- Managing aquatic birds (GGV)	Coastal Regulation Zone Notification – A review (GGV)		Application of remote sensing for wetland management (SNS)	Application of remote sensing for wetland management (SNS)		developing conservation strategy for wetlands - Strategies and action plan (SAH, GGV)		Presentation by the Officer trainees

Teaching Faculty: GGV: Dr. Gopi G.V.; SAH: Dr. S.A. Hussain; KS: Dr. K. Sivakumar; JAJ: Dr. J.A. Johnson; AB: Dr. Anju Baroth; SSK Dr. S. Senthil Kumar; SNS Dr. Sarnam Singh; ND: Dr. Niladri Dasgupta; SA: Dr. Sangeeta Angom
