

Conservation Awareness programmes on the occasion of “World Population Day” for school children at Haridwar, Uttarakhand

(11th July, 2019)

Detailed Report

On the occasion of ‘World Population Day,’ a conservation awareness programmes was organised to sensitize the students on how the relentless human population explosion along the Ganga, creates a hindrance for the Ganga Aqualife. Hence, spreading awareness about the conservation of Biodiversity of Ganga and how curtailing down the rampant human population can help increase the dwindling population of Ganga Biodiversity. The programme was conducted on 11th July 2019 at Jwalapur Inter College, Haridwar for the students of class 6th to 12th with the aim to explain and sensitize about the conservation of biodiversity of Ganga River and its importance to human life and how over-increase in the human population is creating a threat to Ganga and its aqualife conservation.

A total of 900 students and 15 teachers participated in the awareness programme. The programme started with the registration of participants. Thereafter Dr. Sangeeta Angom explained about the WII-NMCG “Biodiversity and Ganga Conservation” project and its objectives through a presentation. Along with this she also informed about the different aquatic species that are found in the Ganga River and their importance. Other than this, a series of activities and exercises related to Ganga Biodiversity was conducted for a total of 300 students of class VI, VII and VIII. The workshop was concluded by the distribution of prizes, certificates to the winners of the quiz and exercises conducted along with brochures, caps and refreshments.
