TWO MONTHS AWARENESS CAMPAIGN FOR SCHOOL CHILDREN (JULY TO AUGUST 2017) UTTARAKHAND

DETAILED REPORT

Awareness campaign spread over the months of July to August 2017 was organized by the Wildlife Institute of India under Component 3 of the NMCG-WII project “Biodiversity conservation and Ganga Rejuvenation” for school children. The main objectives of this awareness campaign were to sensitize the school children on the importance of the Ganga River, its biodiversity with special information on indicator species of Ganga River, emerging threats with mitigation measures and significance for conservation.

During these campaigns a total of 210 participants (186 school children and 24 teachers) participated from various schools (n=7) viz. Kendriya Vidyalaya, Indian Military Academy, Vidhya Niketan School, Kendriya Vidyalaya, ONGC, DSKSS Secondary School Chandrabani, Vanijaya Institute and Physics Academy, SGRR School of Dehradun district. Students (12-17 years) were selected from secondary section of the schools. To disseminate the knowledge among the school children different modes were used, viz. Pictorial presentations, lectures and documentaries of aquatic fauna of Ganga River.

The WII training team comprised of Dr. Sangeeta Angom, Dr. Deepika Dogra, Ms. Monika Sharma, Ms. Ekta Sharma, Ms. Anita Devi and Ms. Jyoti Chakrawarti.
