

**ONE DAY SENSITIZATION WORKSHOP FOR THE STUDENTS AT RAJGHAT INTER-COLLEGE,  
NARORA, BULANDSHAHR ON 20<sup>th</sup> December, 2017**

**DETAILED EVENT**

A one day sensitization workshop was conducted on 20th December at Rajghat inter-college for the students of 11th and 12th Science stream. The workshop aimed at introducing monitoring techniques for the riverine vegetation to the students. A total 29 students and 1 teacher participated in the workshop. Ms. Shashi Joshi started the workshop by giving a brief explanation about the WII-NMCG “Biodiversity Conservation and Ganga Rejuvenation” project and its objectives, different aquatic species found in the Ganga river and importance of the aqualife and issues in their conservation. After this, the students were asked to fill the pre-training questionnaire.

Ms. Monika Mehralu gave a talk on the topic “Monitoring of riverine vegetation”. She started her talk by giving a brief explanation about the objectives of the workshop. Further, she explained about the different types of plants that are found in the river and on the bank of the river, importance of plants in maintaining the ecosystem, techniques that are use for the monitoring of vegetation. She further explained in detail about the quadrat method, size of the quadrat, why quadrat sampling is use, for which type of plant the quadrat sampling is done. Other than this, the students were also informed about the different freshwater turtle species that are found in the Ganga river. Subsequently, the students were asked to fill the feedback form. The workshop was concluded by the distribution of brochures, posters and refreshments.
