**ACTION HISTORY OF RTI REQUEST No.WLIOI/R/2018/50004****Applicant Name**

JOSEPH ALEX

**Text of Application**

I have been quiet glad to see GOI\_s programme for reintroduction of cheetah which has gone extinct by 1952 in 2010 As per the gov brochure ,you have identified 3 landscapes for the reintroduction Gov of that day also told that for the purpose we are initiating talks with African nations who have a countable number of cheetahs As everyone know Cheetah reintroduction will give an impetus to the renewal of Grassland ecosystem,why the successive governments shows a lack of interest 1 What is the present status of the programme Is the programe left over If so what is the reason and does gov has any new ways to reintroduction 2 If the programme is going on what is the status (especially the land aquisitions in 80 seasonally used human settlements in the Shahgarh Landscape and 23 settlements in Nauradehi Wildlife Sanctuary may be relocated with the consent and cooperation of the inhabitants )on land aquisitions 3 By when can we initiate the reintroduction Hoping for a quick reply Thanks and Regrads Joseph Alex

**Reply of Application**

Below is the reply to your RTI as furnished by the concerned authority- The National Tiger Conservation Authority was reminded as Nodal agency for the Cheetah Reintroduction Project. The details asked in the RTI are available with NTCA and with the Chief Wildlife Warden (CWLW), Madhya Pradesh for Nauradehi WLS and CWLW Rajasthan for details on Shahgarh s landscape. WIIs role was of technical assistance to these implementing agencies. Therefore, NTCA, CWLW of Madhya Pradesh and Rajasthan would be in a position to furnish the requested information and not the wildlife institute of India.
